Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner contacted Attorney Wirz in response to the amendments made to the independent claims. It was suggested that the preconfigured segments or divisions needed to be tied into the event of fracturing and disposing of the tool. It was agreed to remove the word "fractures" from claim 1 and replace it with --is purposely fractured along the preconfigured divisions-- to tie the two concepts together. It was agreed to amend the remaining independent claims accordingly, with minor modifications made according to the individual claim. All changes were agreed to be made via Examiner's Amendment.
